

## *E. M. Hunting Preserve*

Come experience the thrill of pheasant hunting at E. M. Hunting Preserve. Your satisfaction is a priority for us. We have a 300-acre farm within the preserve for hunts September through February.

In our family, we have enjoyed hunting for three generations. With hunts in the west as well as the Midwest, our experience has lent itself to aid us in developing a hunting preserve with the hunter in mind. At E. M. Hunting Preserve, you will always be treated with the utmost courtesy and safety in mind.

The privacy of our farm will allow you to have the benefit of a secluded, wooded, farmland without the intrusion of multiple hunting groups. You will have the opportunity to hunt along a creek, fencerow, field and wood edge.

E. M. Hunting offers **guided hunts** or **you can bring your own dogs**. With guided hunts a guide and dogs are furnished to ensure you have a quality hunt every time.
